

Sample Classroom Observation Form

A number of short (15 – 20 min) 'observations' focusing on different aspects of performance is normally better than one full period.

Comments re: Focus Areas and Registered Teacher Criteria	Jennifer did an excellent job of delivering the curriculum. All learners were engaged in the lesson and Jennifer made a concerted effort to move around the classroom, interacting with all learners. She included the entire class when questioning learners and her classroom control was excellent.
